General Statement.

ST. JOHN'S COLLEGE enjoys the powers and privileges of a University; and is conducted by the Jesuit Fathers. It is situated at Fordham, in a picturesque and healthy part of New York county, and is reached in thirty minutes by the Harlem trains, which leave the Grand Central Depot every half hour; it is easily accessible at all hours and seasons, either by private conveyance over the great boulevards, or by the horse-cars, which lead to the gate at the foot of the College lawn.

The grounds are extensive, well laid out for College purposes, and afford uncommon facilities for athletic sports, for bathing, and for skating. Ample opportunities are also provided for indoor amusements. The buildings are spacious, thoroughly ventilated, and supplied with modern conveniences. The Chemical Laboratory, the Philosophical Apparatus, and the Cabinet of Natural History occupy a separate building; considerable additions are made yearly to this department. Besides the College Library, which contains 20,000 volumes, there is a Circulating Library of over 5,000 volumes, especially adapted to the needs of the Students. Books of reference are kept in the Study Hall for the use of the Students.

Instruction.

The Collegiate year is divided into two terms; the first begins on the first Wednesday of September, the second on the first of February. The best time for admission is at the beginning of either term, but applicants may be received at any time during the year.

Candidates for admission, whether coming from their homes, or from other Colleges, are required to present testimonials of good moral character. They are examined by the Prefect of Studies, and placed in the class to which they are entitled by their attainments.

The scholarship of each Student is determined by weekly competitions in some branch of study, and by examinations. There are two examinations of all the classes every year, one at the end of January, and the other at the end of June. In each of the semi-annual examinations, the several classes are examined in all the branches studied during the previous half year. Any Student failing in the January examination descends to a lower class, unless he makes up for the deficiency within a specified time, besides keeping up with the class in its regular work ; failure in the June examination debars a Student from advancement to a higher class. A Student failing in any branch at either of the examinations, is not a full member of his class, so long as he does not make up for the deficiency. Testimonials are awarded for superior success in these examinations.

At the beginning of every month the standing of each Student, for conduct and application, during the previous month, is publicly read out in the College Hall, and testimonials are given to those who have attained to the specified degree of excellence.

A record of the weekly competitions, of the monthly standing, and of the general examinations of each Student, is kept in the books of the College, and a copy sent to his parents or guardian semi-annually.

Medals, prizes and honors are awarded at the Commencement, and published in the annual catalogue ; for proficiency they are determined by the weekly competitions ; for application, and for conduct, by the monthly standing ; for scholarship in the several branches of study, by competitions held immediately before the annual Commencement. No one deficient at either of the general examinations can compete for prizes or honors.

A Gold Medal, worth fifty dollars, is yearly awarded to the writer of the best biographical essay on some eminent Catholic layman of the present times, or of past ages. This prize originated with the Most Rev. John Hughes, Archbishop of New York, and has since been given every year by friends of the College.

The HUGHES' MEDAL, founded by Eugene Kelly, Esq., "to perpetuate the memory of Archbishop HUGHES," is open for competition to those members of the graduating class who were not deficient in any department of study at either of the general examinations. It is awarded to the Student who, at a special examination in Logic, Ontology, Cosmology, Psychology, and Theodicy, receives the highest number of marks, provided such number does not fall below ninety out of a possible hundred.

The decree of Bachelor of Arts is conferred at the close of the College course. The candidates for this honor are required to undergo a successful examination in Natural, Mental and Moral Philosophy, in Evidences of Religion, in the Philosophy of History, and in higher Mathematics. Such candidates must also give evidence of having attained a specified standard in Greek and Latin, and in General Literature.

Graduates who desire a fuller mental training may, in the Post-graduate class, pursue the study of Natural Law, and of other branches of higher education. This second year is of the greatest importance to young men. At the end of this year the degree of Master of Arts is conferred, after a satisfactory examination.

Discipline.

The rules of the College have for their sole end to strengthen and develop the moral character, to promote good breeding, and to secure the order essential to a successful pursuit of learning. These rules, which are

read and explained to all, must be accepted and observed faithfully. The manner of enforcing them is firm, yet mild and paternal, and appeals especially to honor, to conscience, and to religion.

The Students form three distinct divisions according to age. Each division has its separate study halls, dormitories and play grounds, its own gymnasium, billiard and reading rooms.

The correspondence of Students is under the supervision of the College authorities. No books, papers, periodicals, etc., are allowed among the Students until they have been examined and approved.

Students are not permitted to go beyond the College bounds without leave, and without the company of an officer.

The visiting days are Sunday afternoon and Thursday in Summer; Sunday, Tuesday and Thursday afternoons in Winter.

The Summer vacation begins on the last Wednesday in June, and closes on the first Wednesday in September. There is a vacation of one week at Christmas, but none at Easter.

It is of the utmost importance that Students be present every day of the Collegiate year. Absence subjects them to the loss of marks, and adds to the difficulty of obtaining prizes and honors. Permission, therefore, to visit New York city or home is granted only at the request of parents or guardians, and for reasons deemed imperative by the President. Moreover, all Students are required not to stay at home beyond the time allotted for vacations, as competition for prizes begins immediately. *The attention of parents and guardians is especially called to these regulations, and their co-operation is earnestly solicited.*

Students whose parents do not reside in New York city, are not allowed to visit it unless in company of an officer of the College.

The ordinary causes of dismissal are: insubordination, continued inapplication to study, and bad conduct.

Expenses.

All the charges are payable half-yearly in advance.

Entrance fee, to be paid only once,	\$10 00
Tuition and Board, per annum,	300 00
Washing and mending of linen, per annum,	30 00
Medical attendance, per annum,	5 00
Day Scholars, per annum,	60 00
Half Boarders, per annum,	160 00

Use of Chemical and Philosophical Apparatus, \$5 per annum for those who attend the classes of Chemistry and Physics ; Drawing, \$60 ; Piano and use of Piano, \$70 ; Violin, Flute, etc., \$60 each ; Spanish and German, \$20 each per annum, for those who wish to learn them ; \$60 for Students spending the Summer vacation in the College.

There are other slight expenses for societies which the Students form among themselves.

No deduction will be made for absence or withdrawal from College, except on account of sickness or dismissal, and in these cases no deduction will be made for a shorter period than one month.

Books, stationery, clothes, etc., are furnished by the College at current prices, or may be procured by parents or guardians. No uniform is prescribed ; all the College requires in the matter of clothing is, that each Student should have, in quality and quantity, what befits a young gentleman. Each one should, on entering or on returning after either vacation, bring enough of clothing to last until the next vacation.

Articles of clothing, books, etc., will not be furnished by the College, unless a deposit for that purpose be made with the Treasurer. *No advances will be made beyond the deposit.*

Pocket money, if any be allowed by parents or guardians, should be left in the hands of the Treasurer, to be given as prudence may suggest or occasion require.

Students coming from a distance, may have guardians appointed in the vicinity, to be responsible for the regular payment of bills, and to receive the Student if for any reason he should have to withdraw from the College.

Course of Instruction.

The instruction furnished by the College is of two kinds—Classical and Commercial.

General Statement.

ST. JOHN'S COLLEGE enjoys the powers and privileges of a University, and is conducted by Jesuit Fathers. It is situated at Fordham, in a picturesque and healthy part of New York county, and is reached in thirty minutes by the Harlem trains, which leave the Grand Central Depot every half hour; it is easily accessible at all hours and seasons, either by private conveyance over the great boulevards, or by the horse-cars, which lead to the gate at the foot of the College lawn.

The grounds are extensive, well laid out for College purposes, and afford uncommon facilities for athletic sports, for bathing, and for skating. Ample opportunities are also provided for indoor amusements. The buildings are spacious, thoroughly ventilated, and supplied with modern conveniences. The Chemical Laboratory, the Philosophical Apparatus, and the Cabinet of Natural History occupy a separate building; considerable additions are made yearly to this department. Besides the College Library, which contains 20,000 volumes, there is a Circulating Library of over 5,000 volumes, especially adapted to the needs of the Students. Books of reference are kept in the Study Hall for the use of the Students.

Instruction.

The Collegiate year is divided into two terms; the first begins on the first Wednesday of September, the second on the first of February. The best time for admission is at the beginning of either term, but applicants may be received at any time during the year.

Candidates for admission, whether coming from their homes, or from other Colleges, are required to present testimonials of good moral character. They are examined by the Prefect of Studies, and placed in the class to which they are entitled by their attainments.

The scholarship of each Student is determined by weekly competitions in some branch of study, and by examinations. There are two examinations of all the classes every year, one at the end of January, and the other at the end of June. In each of the semi-annual examinations, the several classes are examined in all the branches studied during the previous half year. Any Student failing in the January examination descends to a lower class, unless he makes up for the deficiency within a specified time, besides keeping up with the class in its regular work; failure in the June examination debars a Student from advancement to a higher class. A Student failing in any branch at either of the examinations, is not a full member of his class, so long as he does not make up for the deficiency. Testimonials are awarded for superior success in these examinations.

At the beginning of every month the standing of each Student, for conduct and application, during the previous month, is publicly read out in the College Hall, and testimonials are given to those who have attained to the specified degree of excellence.

A record of the weekly competitions, of the monthly standing, and of the general examinations of each Student, is kept in the books of the College, and a copy sent to his parents or guardian semi-annually.

Medals, prizes and honors are awarded at the Commencement, and published in the annual catalogue; for proficiency they are determined by the weekly competitions; for application and for conduct, by the monthly standing; for scholarship in the several branches of study, by competitions held immediately before the annual Commencement. No one deficient at either of the general examinations can compete for prizes or honors.

A Gold Medal worth fifty dollars is yearly awarded to the writer of the best biographical essay on some eminent Catholic layman of the present times, or of past ages. This prize originated with the Most Rev. John Hughes, Archbishop of New York, and has since been given every year by friends of the College.

The HUGHES' MEDAL, founded by Eugene Kelly, Esq., "to perpetuate the memory of Archbishop HUGHES," is open for competition to those members of the graduating class who were not deficient in any department of study at either of the general examinations. It is awarded to the Student who, at a special examination in Logic, Ontology, Cosmology, Psychology, and Theodicy, receives the highest number of marks, provided such number does not fall below ninety out of a possible hundred.

The degree of Bachelor of Arts is conferred at the close of the College course. The candidates for this honor are required to undergo a successful examination in Natural, Mental and Moral Philosophy, in Evidences of Religion, in the Philosophy of History, and in higher Mathematics. Such candidates must also give evidence of having attained a specified standard in Greek and Latin, and in General Literature.

Graduates who desire a fuller mental training may, in the Post-graduate class, pursue the study of Natural Law, and of other branches of higher education. This second year is of the greatest importance to young men. At the end of this year the degree of Master of Arts is conferred, after a satisfactory examination.

Discipline.

The rules of the College have for their sole end to strengthen and develop the moral character, to promote good breeding, and to secure the order essential to a successful pursuit of learning. These rules, which are

read and explained to all, must be accepted and observed faithfully. The manner of enforcing them is firm, yet mild and paternal, and appeals especially to honor, to conscience, and to religion.

The Students form three distinct divisions according to age. Each division has its separate study halls, dormitories and play grounds, its own gymnasium, billiard and reading rooms.

The correspondence of Students is under the supervision of the College authorities. No books, papers, periodicals, etc., are allowed among the Students until they have been examined and approved.

Students are not permitted to go beyond the College bounds without leave, and without the company of an officer.

The visiting days are Sunday afternoon and Thursday in Summer; Sunday, Tuesday and Thursday afternoons in Winter.

The Summer vacation begins on the last Wednesday in June, and closes on the first Wednesday in September. There is a vacation of one week at Christmas, but none at Easter.

It is of the utmost importance that Students be present every day of the Collegiate year. Absence subjects them to the loss of marks, and adds to the difficulty of obtaining prizes and honors. Permission, therefore, to visit New York city or home is granted only at the request of parents or guardians, and for reasons deemed imperative by the President. Moreover, all Students are required not to stay at home beyond the time allotted for vacations, as competition for prizes begins immediately. *The attention of parents and guardians is especially called to these regulations, and their co-operation is earnestly solicited.*

Students whose parents do not reside in New York city, are not allowed to visit it unless in company of an officer of the College.

The ordinary causes of dismissal are: insubordination, continued inapplication to study, and bad conduct.

Expenses.

All the charges are payable half-yearly in advance.

Entrance fee, to be paid only once,	\$10 00
Tuition and Board, per annum,	300 00
Washing and mending of linen, per annum,	30 00
Medical attendance, per annum,	5 00
Day Scholars, per annum,	60 00
Half Boarders, per annum,	160 00

Use of Chemical and Philosophical Apparatus, \$5 per annum for those who attend the classes of Chemistry and Physics ; Drawing, \$60 ; Piano and Use of Piano, \$70 ; Violin, Flute, etc., \$60 each ; Spanish and German, \$20 each per annum, for those who wish to learn them ; \$60 for Students spending the Summer vacation in the College.

There are other slight expenses for societies which the Students form among themselves.

No deduction will be made for absence or withdrawal from College, except on account of sickness or dismissal, and in these cases no deduction will be made for a shorter period than one month.

Books, stationery, clothes, etc., are furnished by the College at current prices, or may be procured by parents or guardians. No uniform is prescribed ; all the College requires in the matter of clothing is, that each Student should have, in quality and quantity, what befits a young gentleman. Each one should, on entering or on returning after either vacation, bring enough of clothing to last until the next vacation.

Articles of clothing, books, etc., will not be furnished by the College, unless a deposit for that purpose be made with the Treasurer. *No advances will be made beyond the deposit.*

Pocket money, if any be allowed by parents or guardians, should be left in the hands of the Treasurer, to be given as prudence may suggest or occasion require.

Students coming from a distance, may have guardians appointed in the vicinity, to be responsible for the regular payment of bills, and to receive the Student if for any reason he should have to withdraw from the College.

Course of Instruction.

The instruction furnished by the College is of two kinds—Classical and Commercial.

General Statement.

ST. JOHN'S COLLEGE enjoys the powers and privileges of a University, and is conducted by Jesuit Fathers. It is situated at Fordham, in a picturesque and healthy part of New York county, and is reached in thirty minutes by the Harlem trains, which leave the Grand Central Depot every half hour; it is easily accessible at all hours and seasons, either by private conveyance over the great boulevards, or by the horse-cars, which lead to the gate at the foot of the College lawn.

The grounds are extensive, well laid out for College purposes, and afford uncommon facilities for athletic sports, for bathing, and for skating. Ample opportunities are also provided for indoor amusements. The buildings are spacious, thoroughly ventilated, and supplied with modern conveniences. The Chemical Laboratory, the Philosophical Apparatus, and the Cabinet of Natural History occupy a separate building; considerable additions are made yearly to this department. Besides the College Library, which contains 20,000 volumes, there is a Circulating Library of over 5,000 volumes, especially adapted to the needs of the Students. Books of reference are kept in the Study Hall for the use of the Students.

Instruction.

The Collegiate year is divided into two terms; the first begins on the first Wednesday of September, the second on the first of February. The best time for admission is at the beginning of either term, but applicants may be received at any time during the year.

Candidates for admission, whether coming from their homes, or from other Colleges, are required to present testimonials of good moral character. They are examined by the Prefect of Studies, and placed in the class to which they are entitled by their attainments.

The scholarship of each Student is determined by weekly competitions in some branch of study, and by examinations. There are two examinations of all the classes every year, one at the end of January, and the other at the end of June. In each of the semi-annual examinations, the several classes are examined in all the branches studied during the previous half year. Any Student failing in the January examination descends to a lower class, unless he makes up for the deficiency within a specified time, besides keeping up with the class in its regular work ; failure in the June examination debars a Student from advancement to a higher class. A Student failing in any branch at either of the examinations, is not a full member of his class, so long as he does not make up for the deficiency. Testimonials are awarded for superior success in these examinations.

At the beginning of every month the standing of each Student, for conduct and application during the previous month, is publicly read out in the College Hall, and testimonials are given to those who have attained to the specified degree of excellence.

A record of the weekly competitions, of the monthly standing, and of the general examinations of each Student, is kept in the books of the College, and a copy sent to his parents or guardian semi-annually.

Medals, prizes and honors are awarded at the Commencement, and published in the annual catalogue ; for proficiency they are determined by the weekly competitions ; for application and for conduct, by the monthly standing ; for scholarship in the several branches of study, by competitions held immediately before the annual Commencement. No one deficient at either of the general examinations can compete for prizes or honors.

A Gold Medal worth fifty dollars is yearly awarded to the writer of the best biographical essay on some eminent Catholic layman of the present times, or of past ages. This prize originated with the Most Rev. John Hughes, Archbishop of New York, and has since been given every year by friends of the College.

The HUGHES' MEDAL, founded by Eugene Kelly, Esq., "to perpetuate the memory of Archbishop HUGHES," is open for competition to those members of the graduating class who were not deficient in any department of study at either of the general examinations. It is awarded to the Student who, at a special examination in Logic, Ontology, Cosmology, Psychology, and Theodicy, receives the highest number of marks, provided such number does not fall below ninety out of a possible hundred.

The degree of Bachelor of Arts is conferred at the close of the College course. The candidates for this honor are required to undergo a successful examination in Natural, Mental and Moral Philosophy, in Evidences of Religion, in the Philosophy of History, and in higher Mathematics. Such candidates must also give evidence of having attained a specified standard in Greek and Latin, and in General Literature.

Graduates who desire a fuller mental training may, in the Post-graduate class, pursue the study of Natural Law, and of other branches of higher education. This second year is of the greatest importance to young men. At the end of this year the degree of Master of Arts is conferred, after a satisfactory examination.

Discipline.

The rules of the College have for their sole end to strengthen and develop the moral character, to promote good breeding, and to secure the order essential to a successful pursuit of learning. These rules, which are

read and explained to all, must be accepted and observed faithfully. The manner of enforcing them is firm, yet mild and paternal, and appeals especially to honor, to conscience, and to religion.

The Students form three distinct divisions according to age. Each division has its separate study halls, dormitories and play grounds, its own gymnasium, billiard and reading rooms.

The correspondence of Students is under the supervision of the College authorities. No books, papers, periodicals, etc., are allowed among the Students until they have been examined and approved.

Students are not permitted to go beyond the College bounds without leave, and without the company of an officer.

The visiting days are Sunday afternoon and Thursday in Summer; Sunday, Tuesday and Thursday afternoons in Winter.

The Summer vacation begins on the last Wednesday in June, and closes on the first Wednesday in September. There is a vacation of one week at Christmas, but none at Easter.

It is of the utmost importance that Students be present every day of the Collegiate year. Absence subjects them to the loss of marks, and adds to the difficulty of obtaining prizes and honors. Permission, therefore, to visit New York city or home is granted only at the request of parents or guardians, and for reasons deemed imperative by the President. Moreover, all Students are required not to stay at home beyond the time allotted for vacations, as competition for prizes begins immediately. The attention of parents and guardians is especially called to these regulations, and their co-operation is earnestly solicited.

Students whose parents do not reside in New York city, are not allowed to visit it unless in company of an officer of the College.

The ordinary causes of dismissal are: insubordination, continued inapplication to study, and bad conduct. Day Scholars are received on the same conditions as the other Students. For terms, apply at the College.

Expenses.

All the charges are payable half-yearly in advance.

Entrance fee, to be paid only once,	\$10 00
Tuition and Board, per annum,	300 00
Washing and mending of linen, per annum,	30 00
Medical attendance, per annum,	5 00
Half Boarders, per annum,	160 00

Use of Chemical and Philosophical Apparatus, \$5 per annum for those who attend the classes of Chemistry and Physics; Drawing, \$60; Piano and use of Piano, \$70; Violin, Flute, etc., \$60 each; Spanish and German, \$20 each per annum, for those who wish to learn them; \$100 for Students spending the Summer vacation in the College.

There are other slight expenses for societies which the Students form among themselves.

No deduction will be made for absence or withdrawal from College, except on account of sickness or dismissal, and in these cases no deduction will be made for a shorter period than one month.

Books, stationery, clothes, etc., are furnished by the College at current prices, or may be procured by parents or guardians. No uniform is prescribed; all the College requires in the matter of clothing is, that each Student should have, in quality and quantity, what befits a young gentleman. Each one should, on entering or on returning after either vacation, bring enough of clothing to last until the next vacation.

Articles of clothing, books, etc., will not be furnished by the College, unless a deposit for that purpose be made with the Treasurer. *No advances will be made beyond the deposit.*

Pocket money, if any be allowed by parents or guardians, should be left in the hands of the Treasurer, to be given as prudence may suggest or occasion require.

Students coming from a distance, may have guardians appointed in the vicinity, to be responsible for the regular payment of bills, and to receive the Student if for any reason he should have to withdraw from the College.

Course of Instruction.

The instruction furnished by the College is of two kinds—Classical and Commercial.

St. John's Hall

AND

PREPARATORY DEPARTMENT, FORDHAM, N. Y.

The attention of Parents and Guardians is directed to the peculiar advantages which this Department affords to younger boys whom they are desirous of placing at Boarding School.

It is intended to prepare boys from ten and upwards for the higher classes of the Collegiate Course.

The former Diocesan Seminary, which is situated N. W. of the College Buildings, is entirely refitted. Large Study Halls and Spacious Dormitories, in which light, heat and ventilation are carefully provided for, are completed.

Military Drill and Calisthenics have been added to the regular course.

German and French are taught free of charge.

The Hall is under the management of the College Authorities.

Terms as above.

General Statement.

ST. JOHN'S COLLEGE enjoys the powers and privileges of a University, and is conducted by Jesuit Fathers. It is situated at Fordham, in a picturesque and healthy part of New York county, and is reached in thirty minutes by the Harlem trains, which leave the Grand Central Depot every half hour; it is easily accessible at all hours and seasons, either by private conveyance over the great boulevards, or by the horse-cars, which lead to the gate at the foot of the College lawn.

The grounds are extensive, well laid out for College purposes, and afford uncommon facilities for athletic sports, for bathing, and for skating. Ample opportunities are also provided for indoor amusements. The buildings are spacious, thoroughly ventilated, and supplied with modern conveniences. The Chemical Laboratory, the Philosophical Apparatus, and the Cabinet of Natural History occupy a separate building; considerable additions are made yearly to this department. Besides the College Library, which contains 20,000 volumes, there is a Circulating Library of over 5,000 volumes, especially adapted to the needs of the Students. Books of reference are kept in the Study Hall for the use of the Students.

Instruction.

The Collegiate year is divided into two terms; the first begins on the first Wednesday of September, the second on the first of February. The best time for admission is at the beginning of either term, but applicants may be received at any time during the year.

Candidates for admission, whether coming from their homes, or from other Colleges, are required to present testimonials of good moral character. They are examined by the Prefect of Studies, and placed in the class to which they are entitled by their attainments.

The scholarship of each Student is determined by weekly competitions in some branch of study, and by examinations. There are two examinations of all the classes every year, one at the end of January, and the other at the end of June. In each of the semi-annual examinations, the several classes are examined in all the branches studied during the previous half year. Any Student failing in the January examination descends to a lower class, unless he makes up for the deficiency within a specified time, besides keeping up with the class in its regular work; failure in the June examination debars a Student from advancement to a higher class. A Student failing in any branch at either of the examinations, is not a full member of his class, so long as he does not make up for the deficiency. Testimonials are awarded for superior success in these examinations.

At the beginning of every month the standing of each Student, for conduct and application during the previous month, is publicly read out in the College Hall, and testimonials are given to those who have attained to the specified degree of excellence.

A record of the weekly competitions, of the monthly standing, and of the general examinations of each Student, is kept in the books of the College, and a copy sent to his parents or guardian semi-annually.

Medals, prizes and honors are awarded at the Commencement, and published in the annual catalogue; for proficiency they are determined by the weekly competitions; for application and for conduct, by the monthly standing; for scholarship in the several branches of study, by competitions held immediately before the annual Commencement. No one deficient at either of the general examinations can compete for prizes or honors.

A Gold Medal worth fifty dollars is yearly awarded to the writer of the best biographical essay on some eminent Catholic layman of the present times, or of past ages. The prize originated with the Most Rev. John Hughes, Archbishop of New York, and has since been given every year by friends of the College.

The HUGHES MEDAL, founded by Eugene Kelly, Esq., "to perpetuate the memory of Archbishop HUGHES," is open for competition to those members of the graduating class who were not deficient in any department of study at either of the general examinations. It is awarded to the Student who, at a special examination in Logic, Ontology, Cosmology, Psychology, and Theodicy, receives the highest number of marks, provided such number does not fall below ninety out of a possible hundred.

The degree of Bachelor of Arts is conferred at the close of the College course. The candidates for this honor are required to undergo a successful examination in Natural, Mental and Moral Philosophy, in Evidences of Religion, in the Philosophy of History, and in higher Mathematics. Such candidates must also give evidence of having attained a specified standard in Greek and Latin, and in General Literature.

Graduates who desire a fuller mental training may, in the Post-graduate class, pursue the study of Natural Law, and of other branches of higher education. This second year is of the greatest importance to young men. At the end of this year the degree of Master of Arts is conferred, after a satisfactory examination.

Discipline.

The rules of the College have for their sole end to strengthen and develop the moral character, to promote good breeding, and to secure the order essential to a successful pursuit of learning. These rules, which are

read and explained to all, must be accepted and observed faithfully. The manner of enforcing them is firm, yet mild and paternal, and appeals especially to honor, to conscience, and to religion.

The Students form three distinct divisions according to age. Each division has its separate study halls, dormitories and play grounds, its own gymnasium, billiard and reading rooms.

The correspondence of Students is under the supervision of the College authorities. No books, papers, periodicals, etc., are allowed among the Students until they have been examined and approved.

Students are not permitted to go beyond the College bounds without leave, and without the company of an officer.

The visiting days are Sunday afternoons and Thursday in Summer; Sunday, Tuesday and Thursday afternoons in Winter.

The Summer vacation begins on the last Wednesday in June, and closes on the first Wednesday in September. There is a vacation of one week at Christmas, but none at Easter.

It is of the utmost importance that Students be present every day of the Collegiate year. Absence subjects them to the loss of marks, and adds to the difficulty of obtaining prizes and honors. Permission, therefore, to visit New York city or home is granted only at the request of parents or guardians, and for reasons deemed imperative by the President. Moreover, all Students are required not to stay at home beyond the time allotted for vacations, as competition for prizes begins immediately. The attention of parents and guardians is especially called to these regulations, and their co-operation is earnestly solicited.

Students whose parents do not reside in New York city, are not allowed to visit it unless in company of an officer of the College.

The ordinary causes of dismissal are: insubordination, continued inapplication to study, and bad conduct. Day Scholars are received on the same conditions as the other Students. For terms, apply at the College.

Expenses.

All the charges are payable half-yearly in advance.

Entrance fee, to be paid only once,	\$10 00
Tuition and Board, per annum,	300 00
Washing and mending of linen, per annum,	30 00
Medical attendance, per annum,	5 00
Half Boarders, per annum,	160 00

Use of Chemical and Philosophical Apparatus, \$5 per annum for those who attend the classes of Chemistry and Physics; Drawing, \$60; Piano and use of Piano, \$70; Violin, Flute, etc., \$60 each, for those who wish to learn them; \$100 for Students spending the Summer vacation in the College.

There are other slight expenses for societies which the Students form among themselves.

No deduction will be made for absence or withdrawal from College, except on account of sickness or dismissal, and in these cases no deduction will be made for a shorter period than one month.

Books, stationery, clothes, etc., are furnished by the College at current prices, or may be procured by parents or guardians. No uniform is prescribed; all the College requires in the matter of clothing is, that each Student should have, in quality and quantity, what befits a young gentleman. Each one should, on entering or on returning after either vacation, bring enough of clothing to last until the next vacation.

Articles of clothing, books, etc., will not be furnished by the College, unless a deposit for that purpose be made with the Treasurer. *No advances will be made beyond the deposit.*

Pocket money, if any be allowed by parents or guardians, should be left in the hands of the Treasurer, to be given as prudence may suggest or occasion require.

Students coming from a distance, may have guardians appointed in the vicinity, to be responsible for the regular payment of bills, and to receive the Student if for any reason he should have to withdraw from the College.

Course of Instruction.

The instruction furnished by the College is of two kinds—Classical and Commercial.

PREPARATORY AND OPTIONAL STUDIES.

1st. A special Latin class, which is intended to advance young men who come too late in the year, or are too old to enter the ordinary Grammar classes. The students of this class are promoted to the regular class, which their success in the January or June examination entitles them to enter.

2d. A special class for Spaniards and others who do not know enough English to allow them to take rank in the ordinary classes.

3d. Book-keeping is optional for the Under-graduates.

4th. German, Spanish and Drawing are optional, and for these branches, except Drawing, there are no extra charges.

5th. Lectures on Political Economy and other scientific subjects, will be delivered by professional lecturers during the year.

A SPECIAL SCIENTIFIC COURSE

has been established for Special Students. The terms are, including board and tuition, \$400 a year. The use of Chemicals and Instruments forms extra charges. It is required that each applicant be 16 years of age, have a full knowledge of English, possess the elements of French and German, and know Arithmetic, Mensuration, the Metric System, Elementary Algebra, and free-hand drawing. The following is the prospectus for the three years of the course, at the end of which, after a successful examination, the degree of Bachelor of Science, B.S., will be awarded.

St. John's Hall

AND

PREPARATORY DEPARTMENT, FORDHAM, N. Y.

The attention of Parents and Guardians is directed to the peculiar advantages which this Department affords to younger boys whom they are desirous of placing at Boarding School.

It is intended to prepare boys from ten and upwards for the higher classes of the Collegiate Course.

The former Diocesan Seminary, which is situated N. W. of the College Buildings, is entirely refitted. Large Study Halls and Spacious Dormitories, in which light, heat and ventilation are carefully provided for, are completed.

Military Drill and Calisthenics have been added to the regular course.

German and French are taught free of charge.

The Hall is under the management of the College Authorities.

Terms as above.

General Statement.

ST. JOHN'S COLLEGE enjoys the powers and privileges of a University, and is conducted by Jesuit Fathers. It is situated at Fordham, in a picturesque and healthy part of New York county, and is reached in thirty minutes by the Harlem trains, which leave the Grand Central Depot every half hour; it is easily accessible at all hours and seasons, either by private conveyance over the great boulevards, or by the horse-cars, which lead to the gate at the foot of the College lawn.

The grounds are extensive, well laid out for College purposes, and afford uncommon facilities for athletic sports, for bathing, and for skating. There is, moreover, in course of erection a swimming bath or natatorium, which will be finished by next November. Ample opportunities are also provided for indoor amusements. The buildings are spacious, thoroughly ventilated, and supplied with modern conveniences. The Chemical Laboratory, the Philosophical Apparatus, and the Cabinet of Natural History occupy a separate building; considerable additions are made yearly to this department. Besides the College Library, which contains 20,000 volumes, there is a Circulating Library of over 5,000 volumes, especially adapted to the needs of the Students. Books of reference are kept in the Study Hall for the use of the Students.

Instruction.

The Collegiate year is divided into two terms; the first begins about the middle of September, the second on the first of February. The best time for admission is at the beginning of either term, but appli-

cants may be received at any time during the year. Candidates for admission, whether coming from their homes, or from other Colleges, are required to present testimonials of good moral character. They are examined by the Prefect of Studies, and placed in the class to which they are entitled by their attainments.

The scholarship of each Student is determined by weekly competitions in some branch of study, and by examinations. There are two examinations of all the classes every year, one at the end of January, and the other at the end of June. In each of the semi-annual examinations, the several classes are examined in all the branches studied during the previous half year. Any Student failing in the January examination descends to a lower class, unless he makes up for the deficiency within a specified time, besides keeping up with the class in its regular work; failure in the June examination debars a Student from advancement to a higher class. A Student failing in any branch at either of the examinations, is not a full member of his class, so long as he does not make up for the deficiency. Testimonials are awarded for superior success in these examinations.

At the beginning of every month the standing of each Student, for conduct and application during the previous month, is publicly read out in the College Hall, and testimonials are given to those who have attained to the specified degree of excellence.

A record of the weekly competitions, of the monthly standing, and of the general examinations of each Student, is kept in the books of the College, and a copy sent to his parents or guardians semi-annually.

Medals, prizes and honors are awarded at the Commencement, and published in the annual catalogue; for proficiency they are determined by the weekly competitions; for application and for conduct, by the monthly standing; for scholarship in the several branches of study, by competitions held immediately before the annual Commencement. No one deficient at either of the general examinations can compete for prizes or honors.

A Gold Medal worth fifty dollars is yearly awarded to the writer of the best biographical essay on some eminent Catholic layman of the present times, or of past ages. The prize originated with the Most Rev. John Hughes, Archbishop of New York, and has since been given every year by friends of the College.

The HUGHES MEDAL, founded by Eugene Kelly, Esq., "to perpetuate the memory of Archbishop HUGHES," is open for competition to those members of the graduating class who were not deficient in any department of study at either of the general examinations. It is awarded to the Student who, at a special examination in Logic, Ontology, Cosmology, Psychology, and Theodicy, receives the highest number of marks, provided such number does not fall below ninety out of a possible hundred.

The degree of Bachelor of Arts is conferred at the close of the College course. The candidates for this honor are required to undergo a successful examination in Natural, Mental and Moral Philosophy, in Evidences of Religion, in the Philosophy of History, and in higher Mathematics. Such candidates must also give evidence of having attained a specified standard in Greek and Latin, and in General Literature.

Graduates who desire a fuller mental training may, in the Post-graduate class, pursue the study of Natural Law, and of other branches of higher education. This second year is of the greatest importance to young men. At the end of this year the degree of Master of Arts is conferred, after a satisfactory examination.

Discipline.

The rules of the College have for their sole end to strengthen and develop the moral character, to promote good breeding, and to secure the order essential to a successful pursuit of learning. These rules, which are

read and explained to all, must be accepted and observed faithfully. The manner of enforcing them is firm, yet mild and paternal, and appeals especially to honor, to conscience, and to religion.

The Students form three distinct divisions according to age. Each division has its separate study halls, dormitories and play grounds, its own gymnasium, billiard and reading rooms.

The U. S. Government has detailed a West Point officer to give instruction in military drill and tactics to all the Students.

Within the past year besides instruction in dancing, fencing, boxing and calisthenics, lessons were given in horsemanship. The College provides horses. This class as well as dancing, fencing and boxing, forms extra charges. There is a sheltered track for winter riding. In summer the class very seldom leaves the College bounds, and then only in the company of an officer of the College.

The correspondence of Students is under the supervision of the College authorities. No books, papers, periodicals, etc., are allowed among the Students until they have been examined and approved.

Students are not permitted to go beyond the College bounds without leave, and without the company of an officer.

The visiting days are Sunday afternoons and Thursday in Summer; Sunday, Tuesday and Thursday afternoons in Winter.

The Summer vacation begins on the last Wednesday in June, and closes on the first Wednesday in September. There is a vacation of one week at Christmas, but none at Easter.

It is of the utmost importance that Students be present every day of the Collegiate year. Absence subjects them to the loss of marks, and adds to the difficulty of obtaining prizes and honors. Permission, therefore, to visit New York city or home is granted only at the request of parents or guardians, and for reasons deemed imperative by the President. Moreover, all Students are required not to stay at

home beyond the time allotted for vacations, as competition for prizes begins immediately. The attention of parents and guardians is especially called to these regulations, and their co-operation is earnestly solicited.

Students whose parents do not reside in New York city, are not allowed to visit it unless in company of an officer of the College.

The ordinary causes of dismissal are: insubordination, continued inapplication to study, and bad conduct. Day Scholars are received on the same conditions as the other Students. For terms, apply at the College.

Expenses.

All the charges are payable half-yearly in advance.

Entrance fee, to be paid only once,	\$10 00
Tuition and Board, per annum,	300 00
Washing and mending of linen, per annum,	30 00
Medical attendance, per annum,	5 00
Half Boarders, per annum,	160 00

Use of Chemical and Philosophical Apparatus, \$5 per annum for those who attend the classes of Chemistry and Physics; Drawing, \$60; Piano and use of Piano, \$70; Violin, Flute, etc., \$60 each for those who wish to learn them; \$100 for Students spending the Summer vacation in the College.

There are other slight expenses for societies which the Students form among themselves.

No deduction will be made for absence or withdrawal from College, except on account of sickness or dismissal, and in these cases no deduction will be made for a shorter period than one month.

Books, stationery, clothes, etc., are furnished by the College at current prices, or may be procured by parents or guardians. No uniform is prescribed; all the College requires in the matter of clothing is, that each Student

should have, in quality and quantity, what befits a young gentleman. Each one should, on entering or on returning after either vacation, bring enough of clothing to last until the next vacation.

Articles of clothing, books, etc., will not be furnished by the College, unless a deposit for that purpose be made with the Treasurer. *No advances will be made beyond the deposit.*

Pocket money, if any be allowed by parents or guardians, should be left in the hands of the Treasurer, to be given as prudence may suggest or occasion require.

Students coming from a distance, may have guardians appointed in the vicinity, to be responsible for the regular payment of bills, and to receive the Student if for any reason he should have to withdraw from the College.

Course of Instruction.

The instruction furnished by the College is of two kinds—Classical and Commercial.

St. John's Hall
AND
PREPARATORY DEPARTMENT,
FORDHAM, N. Y.

The attention of Parents and Guardians is directed to the peculiar advantages which this Department affords to younger boys whom they are desirous of placing at Boarding School.

It is intended to prepare boys from ten and upwards for the higher classes of the Collegiate Course.

The former Diocesan Seminary, which is situated N. W. of the College Buildings, is entirely refitted. Large Study Halls and Spacious Dormitories, in which light, heat and ventilation are carefully provided for, are completed.

• Military Drill and Calisthenics have been added to the regular course.

German and French are taught free of charge.

The Hall is under the management of the College Authorities.

Terms as above.

General Statement.

ST. JOHN'S COLLEGE enjoys the powers and privileges of a University, and is conducted by Jesuit Fathers. It is situated at Fordham, in a picturesque and healthy part of New York county, and is reached in thirty minutes by the Harlem trains, which leave the Grand Central Depot every half hour; it is easily accessible at all hours and seasons, either by private conveyance over the great boulevards, or by the horse-cars, which lead to the gate at the foot of the College lawn.

The grounds are extensive, well laid out for College purposes, and afford uncommon facilities for athletic sports, for bathing, and skating. Ample opportunities are also provided for indoor amusements. The buildings are spacious, thoroughly ventilated, and supplied with modern conveniences. The Chemical Laboratory, the Philosophical Apparatus, and the Cabinet of Natural History occupy a separate building; considerable additions are made yearly to this department. Besides the College Library, which contains 20,000 volumes, there is a Circulating Library of over 5,000 volumes, especially adapted to the needs of the Students.

Instruction.

The Collegiate year is divided into two terms; the first begins about the middle of September, the second on the first of February. The best time for admission is at the beginning of either term, but applicants may be received at any time during the year. Candidates for admission, whether coming from their homes, or from other Colleges, are required to present testimonials of good moral character. They are examined by the Pre-

fect of Studies, and placed in the class to which they are entitled by their attainments.

The scholarship of each Student is determined by weekly competitions in some branch of study, and by examinations. There are two examinations of all the classes every year, one at the end of January, and the other at the end of June. In each of the semi-annual examinations, the several classes are examined in all the branches studied during the previous half year. Any Student failing in the January examination descends to a lower class, unless he makes up for the deficiency within a specified time, besides keeping up with the class in its regular work; failure in the June examination debars a Student from advancement to a higher class. A Student failing in any branch at either of the examinations, is not a full member of his class, so long as he does not make up for the deficiency. Testimonials are awarded for superior success in these examinations.

At the beginning of every month the standing of each Student, for conduct and application during the previous month, is publicly read out in the College Hall, and testimonials are given to those who have attained to the specified degree of excellence.

A record of the weekly competitions, of the monthly standing, and of the general examinations of each Student, is kept in the books of the College, and a copy sent to his parents or guardians semi-annually.

Medals, prizes and honors are awarded at the Commencement, and published in the annual catalogue; for proficiency they are determined by the weekly competitions; for application and for conduct, by the monthly standing; for scholarship in the several branches of study, by competitions held immediately before the annual Commencement. No one deficient at either of the general examinations can compete for prizes or honors.

A Gold Medal worth fifty dollars is yearly awarded to the writer of the best biographical essay on some eminent Catholic layman of the present times, or of past ages. The prize originated with the Most Rev. John

Hughes, Archbishop of New York, and has since been given every year by friends of the College.

The HUGHES MEDAL, founded by Eugene Kelly, Esq., "to perpetuate the memory of Archbishop HUGHES," is open for competition to those members of the graduating class who were not deficient in any department of study at either of the general examinations. It is awarded to the Student who, at a special examination in Logic, Ontology, Cosmology, Psychology, and Theodicy, receives the highest number of marks, provided such number does not fall below ninety out of a possible hundred.

The degree of Bachelor of Arts is conferred at the close of the College course. The candidates for this honor are required to undergo a successful examination in Natural, Mental and Moral Philosophy, in Evidences of Religion, in the Philosophy of History, and in higher Mathematics. Such candidates must also give evidence of having attained a specified standard in Greek and Latin, and in General Literature.

Graduates who desire a fuller mental training may, in the Post-graduate class, pursue the study of Natural Law, and of other branches of higher education. This second year is of the greatest importance to young men. At the end of this year the degree of Master of Arts is conferred, after a satisfactory examination.

Discipline.

The rules of the College have for their sole end to strengthen and develop the moral character, to promote good breeding, and to secure the order essential to a successful pursuit of learning. These rules, which are read and explained to all, must be accepted and observed faithfully. The manner of enforcing them is firm, yet mild and paternal, and appeals especially to honor, to conscience, and to religion.

The Students form three distinct divisions according to age. Each division has its separate study halls, dormitories and play grounds, its own gymnasium, billiard and reading rooms.

The U. S. Government has detailed an army officer to give instruction in military drill and tactics to all the Students.

The correspondence of Students is under the supervision of the College authorities. No books, papers, periodicals, etc., are allowed among the Students until they have been examined and approved.

Students are not permitted to go beyond the College bounds without leave, and without the company of an officer.

The visiting days are Sunday afternoons and Thursday in Summer; Sunday, Tuesday and Thursday afternoons in Winter.

The Summer vacation begins on the last Wednesday in June, and closes on the first Wednesday in September. There is a vacation of one week at Christmas, but none at Easter.

It is of the utmost importance that Students be present every day of the Collegiate year. Absence subjects them to the loss of marks, and adds to the difficulty of obtaining prizes and honors. Permission, therefore, to visit New York city or home is granted only at the request of parents or guardians, and for reasons deemed imperative by the President. Moreover, all Students are required not to stay at home beyond the time allotted for vacations, as competition for prizes begins immediately. The attention of parents and guardians is especially called to these regulations, and their co-operation is earnestly solicited.

Students whose parents do not reside in New York city are not allowed to visit it unless in company of an officer of the College.

The ordinary causes of dismissal are: insubordination, continued inapplication to study, and bad conduct. Day Scholars are received on the same conditions as the other Students. For terms, apply at the College.

Use of Chemical and Philosophical Apparatus, \$5 per annum for those who attend the classes of Chemistry and Physics; Drawing, \$60; Piano and use of Piano, \$70; Violin, Flute, etc, \$60 each for those who wish to learn them; \$100 for Students spending the Summer vacation in the College.

There are other slight expenses for societies which the Students form among themselves.

No deduction will be made for absence or withdrawal from College, except on account of sickness or dismissal, and in these cases no deduction will be made for a shorter period than one month.

Books, stationery, clothes, etc., are furnished by the College at current prices, or may be procured by parents or guardians. No uniform is prescribed; all the College requires in the matter of clothing is, that each Student should have, in quality and quantity, what befits a young gentleman. Each one should, on entering or on returning after either vacation, bring enough of clothing to last until the next vacation.

Articles of clothing, books, etc., will not be furnished by the College, unless a deposit for that purpose be made with the Treasurer. *No advance will be made beyond the deposit.*

Pocket money, if any be allowed by parents or guardians, should be left in the hands of the Treasurer, to be given as prudence may suggest or occasion require.

Students coming from a distance, may have guard-

ians appointed in the vicinity, to be responsible for the regular payment of bills, and to receive the Students if for any reason they should have to withdraw from the College.

Course of Instruction.

The instruction furnished by the College is of two kinds—Classical and Commercial.

St. John's Hall
AND
PREPARATORY DEPARTMENT,
FORDHAM, N. Y.

The attention of Parents and Guardians is directed to the peculiar advantages which this Department affords to younger boys whom they are desirous of placing at Boarding School.

It is intended to prepare boys from ten and upwards for the higher classes of the Collegiate Course.

The former Diocesan Seminary, which is situated N. W. of the College Buildings, is entirely refitted. Large Study Halls and Spacious Dormitories, in which light, heat and ventilation are carefully provided for, are completed.

Military Drill and Calisthenics have been added to the regular course.

German and French are taught free of charge.

The Hall is under the management of the College Authorities.

Terms as above.

For further particulars address

The Military Department.

In accordance with an Act of Congress an officer of the United States Army has been detailed for duty at the College as Professor of Military Science and Tactics. The War Department has furnished the College with the necessary arms and equipments.

All Students belonging to the Junior and Middle Divisions are required to attend drill once each week. For this no uniform is necessary. Besides this, a Cadet company has been organized, which Students of all the Divisions are free to join. Its members drill three times a week in uniform. Its officers are selected from the Cadets most distinguished for soldierly bearing and proficiency in drill and tactics. The uniform adopted is similar to that worn at the U. S. Military Academy at West Point, and costs, complete, about \$30. It can be worn at all times, so that it is not necessary to be provided with two outfits of clothing.

The advantages of this kind of exercise, even for physical culture, are such as easily recommend themselves to the consideration of parents and guardians.

STUDIES WILL BE RESUMED

ON

WEDNESDAY, SEPTEMBER 7, 1887.

General Statement.

ST. JOHN'S COLLEGE enjoys the powers and privileges of a University, and is conducted by Jesuit Fathers. It is situated at Fordham, in a picturesque and healthy part of New York County, and is reached in thirty minutes by the Harlem trains, which leave the Grand Central Depot every half-hour; it is easily accessible at all hours and seasons, either by private conveyance over the great boulevards, or by the horse-cars which lead to the gate at the foot of the College lawn.

The grounds are extensive, well laid out for College purposes, and afford uncommon facilities for athletic sports, for bathing and skating. Ample opportunities are also provided for indoor amusements. The buildings are spacious, thoroughly ventilated, and supplied with modern conveniences. The Chemical Laboratory, the Philosophical Apparatus, and the Cabinet of Natural History occupy a separate building; considerable additions are made yearly to this department. Besides the College Library, which contains 20,000 volumes, there is a Circulating Library of over 5,000 volumes, especially adapted to the needs of the Students.

Instruction.

The Collegiate year is divided into two terms; the first begins about the middle of September, the second on the first of February. The best time for admission is at the beginning of either term, but applicants may be received at any time during the year. Candidates for admission, whether coming from their homes or from other Colleges, are required to present testimonials of good moral charac-

ter. They are examined by the Prefect of Studies, and placed in the class to which they are entitled by their attainments.

The scholarship of each Student is determined by weekly competitions in some branch of study, and by examinations. There are two examinations of all the classes every year, one at the end of January and the other at the end of June. In each of the semi-annual examinations the several classes are examined in all the branches studied during the previous half-year. Any Student failing in the January examination descends to a lower class, unless he makes up for the deficiency within a specified time, besides keeping up with the class in its regular work; failure in the June examination debars a Student from advancement to a higher class. A Student failing in any branch at either of the examinations is not a full member of his class, so long as he does not make up for the deficiency. Testimonials are awarded for superior success in these examinations.

At the beginning of every month the standing of each Student for conduct and application during the previous month is publicly read out in the College Hall, and testimonials are given to those who have attained to the specified degree of excellence.

A record of the weekly competitions, of the monthly standing, and of the general examinations of each Student is kept in the books of the College, and a copy sent to his parents or guardians semi-annually.

Medals, prizes, and honors are awarded at the Commencement and published in the annual catalogue; for proficiency they are determined by the weekly competitions; for application and for conduct, by the monthly standing; for scholarship in the several branches of study, by competitions held immediately before the annual Commencement. No one deficient at either of the general examinations can compete for prizes or honors.

The degree of Bachelor of Arts is conferred at the close of the College course. The candidates for this honor are

required to undergo a successful examination in Natural, Mental, and Moral Philosophy, in Evidences of Religion, in the Philosophy of History, and in higher Mathematics. Such candidates must also give evidence of having attained a specified standard in Greek and Latin. and in General Literature.

Graduates who desire a fuller mental training may, in the Post-graduate class, pursue the study of Natural Law and of other branches of higher education. This second year is of the greatest importance to young men. At the end of this year the degree of Master of Arts is conferred, after a satisfactory examination.

Discipline.

The rules of the College have for their sole end to strengthen and develop the moral character and to secure the order essential to a successful pursuit of learning. These rules, which are read and explained to all, must be accepted and observed faithfully. The manner of enforcing them is firm, yet mild and paternal, and appeals especially to honor, to conscience, and to religion.

The Students form three distinct divisions according to age. Each division has its separate study-halls, dormitories, and play-grounds, its own gymnasium, billiard and reading rooms.

The U. S. Government has detailed an army officer to give instruction in military drill and tactics to all the Students.

The correspondence of Students is under the supervision of the College authorities. No books, papers, periodicals, etc., are allowed among the Students until they have been examined and approved.

The visiting days are Sunday afternoons and Thursday in Summer; Sunday, Tuesday, and Thursday afternoons in Winter.

The Summer vacation begins on the last Wednesday in June and closes on the first Wednesday in September. There is a vacation of one week at Christmas, but none at Easter.

It is of the utmost importance that Students be present every day of the Collegiate year. Absence subjects them to the loss of marks, and adds to the difficulty of obtaining prizes and honors. Permission, therefore, to visit New York City or home is granted only at the request of parents or guardians, and for reasons deemed imperative by the President. Moreover, all Students are required not to stay at home beyond the time allotted for vacations, as competition for prizes begins immediately. The attention of parents and guardians is especially called to these regulations, and their co-operation is earnestly solicited.

The ordinary causes of dismissal are: insubordination, continued inapplication to study, and bad conduct. Day-scholars are received on the same conditions as the other Students. For terms apply at the College.

Expenses.

All the charges are payable half-yearly in advance.

Entrance fee, to be paid only once,	\$10 00
Tuition and Board, per annum,	300 00
Washing and mending of linen, per annum,	30 00
Medical attendance, per annum,	5 00

Use of Chemical and Philosophical Apparatus, \$5 per annum for those who attend the classes of Chemistry and Physics; Drawing, \$60; Piano and use of Piano, \$70; Violin, Flute, etc., \$60 each for those who wish to learn them; \$100 for Students spending the Summer vacation in the College.

There are other slight expenses for societies which the Students form among themselves.

No deduction will be made for absence or withdrawal from College, except on account of sickness or dismissal, and in these cases no deduction will be made for a shorter period than one month.

Books, stationery, clothes, etc., are furnished by the College at current prices, or may be procured by parents or guardians. No uniform is prescribed ; all the College requires in the matter of clothing is that each Student should have, in quality and quantity, what befits a young gentleman. Each one should, on entering or on returning after either vacation, bring enough of clothing to last until the next vacation.

Articles of clothing, books, etc., will not be furnished by the College unless a deposit for that purpose be made with the Treasurer. *No advance will be made beyond the deposit.*

Pocket-money, if any be allowed by parents or guardians, should be left in the hands of the Treasurer, to be given as prudence may suggest or occasion require.

Students coming from a distance may have guardians appointed in the vicinity, to be responsible for the regular payment of bills, and to receive the Students if for any reason they should have to withdraw from the College.

Course of Instruction.

The instruction furnished by the College is of two kinds—Classical and Commercial. 3

St. John's Hall

AND

PREPARATORY DEPARTMENT,

FORDHAM, N. Y.

The attention of Parents and Guardians is directed to the peculiar advantages which this Department affords to younger boys whom they are desirous of placing at Boarding School.

It is intended to prepare boys from ten and upwards for the higher classes of the Collegiate Course.

The former Diocesan Seminary, which is situated N. W. of the College Buildings, is entirely refitted. Large Study Halls and Spacious Dormitories, in which light, heat, and ventilation are carefully provided for, are completed.

Military Drill and Calisthenics have been added to the regular course.

German and French are taught free of charge.

The Hall is under the management of the College Authorities.

Terms as above.

For further particulars address

REV. THOMAS J. CAMPBELL, S.J.,
President.

The Military Department.

In accordance with an Act of Congress an officer of the United States Army is detailed for duty at the College as Professor of Military Science and Tactics. The War Department furnishes the College with the necessary arms and equipments.

All Students except those of the graduating classes are required to attend drill once each week. For this no uniform is necessary. Besides this there is a Cadet company with optional membership. Its members drill three times a week in uniform. Its officers are selected from the Cadets most distinguished for soldierly bearing and proficiency in drill and tactics. The uniform adopted is similar to that worn at the U. S. Military Academy at West Point, and costs, complete, about \$30. It can be worn at all times, so that it is not necessary to be provided with two outfits of clothing.

The advantages of this kind of exercise, even for physical culture, are such as easily recommend themselves to the consideration of parents and guardians.

GENERAL STATEMENT.

ST. JOHN'S COLLEGE enjoys the powers and privileges of a University, and is conducted by Jesuit Fathers. It is situated at Fordham, in a picturesque and healthy part of New York County, and is reached in thirty minutes by the Harlem trains, which leave the Grand Central Depot every half-hour; it is easily accessible at all hours and seasons, either by private conveyance over the great boulevards, or by the horse-cars which lead to the gate at the foot of the College lawn.

The grounds are extensive, well laid out for College purposes, and afford uncommon facilities for athletic sports, for bathing and skating. Ample opportunities are also provided for indoor amusements. The buildings are spacious, thoroughly ventilated, lighted by electricity, and supplied with modern conveniences. The Chemical Laboratory, the Philosophical Apparatus, and the Cabinet of Natural History occupy a separate building; considerable additions are made yearly to this department. Besides the College Library, which contains 20,000 volumes, there is a Circulating Library of over 5,000 volumes, especially adapted to the needs of the Students.

INSTRUCTION.

The Collegiate year is divided into two terms; the first begins about the middle of September, the second on the first of February. The best time for admission is at the beginning of either term, but applicants may be received at any time during the year. Candi-

dates for admission, whether coming from their homes or from other Colleges, are required to present testimonials of good moral character. They are examined by the Prefect of Studies, and placed in the class to which they are entitled by their attainments.

The scholarship of each Student is determined by weekly competitions in some branch of study, and by examinations. There are two examinations of all the classes every year, one at the end of January and the other at the end of June. In each of the semi-annual examinations the several classes are examined in all the branches studied during the previous half-year. Any Student failing in the January examination descends to a lower class, unless he makes up for the deficiency within a specified time, besides keeping up with the class in its regular work; failure in the June examination debars a Student from advancement to a higher class. A Student failing in any branch at either of the examinations is not a full member of his class, so long as he does not make up for the deficiency. Testimonials are awarded for superior success in these examinations.

At the beginning of every month the standing of each Student for conduct and application during the previous month is publicly read out in the College Hall, and testimonials are given to those who have attained to the specified degree of excellence.

A record of the weekly competitions, of the monthly standing, and of the general examinations of each Student is kept in the books of the College, and a report of the month's work is sent to each Student's parents or guardians.

Medals, prizes, and honors are awarded at the Commencement and published in the annual catalogue; for proficiency they are determined by the weekly competitions; for application and for conduct, by the monthly standing; for scholarship in the several branches of study, by competitions held throughout the year. No

one deficient at either of the general examinations can compete for prizes or honors.

The degree of Bachelor of Arts is conferred at the close of the College course. The candidates for this honor are required to undergo an examination in Natural, Mental, and Moral Philosophy; in Evidences of Religion; in the Philosophy of History, and in higher Mathematics. Such candidates must also give evidence of having attained a specified standard in Greek and Latin, and in General Literature.

Graduates who desire a fuller mental training may, in the Post-graduate class, pursue the study of Natural Law and of other branches of higher education. This second year is of the greatest importance to young men. At the end of this year the degree of Master of Arts is conferred, after a satisfactory examination.

DISCIPLINE.

The rules of the College have for their sole end to strengthen and develop the moral character and to secure the order essential to a successful pursuit of learning. These rules, which are read and explained to all, must be accepted and observed faithfully. The manner of enforcing them is firm, yet mild and paternal, and appeals especially to honor, to conscience, and to religion.

The Students form three distinct divisions according to age. Each division has its separate study-halls, dormitories, and playgrounds, its own gymnasium, billiard and reading-rooms.

The U. S. Government has detailed an army officer to give instruction in military drill and tactics to all the Students.

The correspondence of Students is under the supervision of the College authorities. No books, papers, periodicals, etc., are allowed among the Students until they have been examined and approved.

The visiting days are Sunday afternoons and Thursday in Summer; Sunday, Tuesday, and Thursday afternoons in Winter.

The Summer vacation begins on the last Wednesday in June and closes on the first Wednesday in September. There is a vacation of one week at Christmas, but none at Easter.

It is of the utmost importance that Students be present every day of the Collegiate year. Absence subjects them to the loss of marks and adds to the difficulty of obtaining prizes and honors. Permission, therefore, to visit New York City or home is granted only at the request of parents or guardians, and for reasons deemed imperative by the President. Moreover, all Students are required not to stay at home beyond the time allotted for vacations, as competition for prizes begins immediately. The attention of parents and guardians is especially called to these regulations, and their co-operation is earnestly solicited.

The ordinary causes of dismissal are: insubordination, continued inapplication to study, and bad conduct.

EXPENSES.

All the charges are payable half-yearly in advance.

Entrance fee, to be paid only once,	\$10 00
Tuition and Board, per annum,	300 00
Washing and mending of linen, per annum,	30 00
Medical attendance, per annum,	5 00
Half Boarders, per annum,	160 00
Day Scholars, per annum,	60 00

Use of Chemical and Philosophical Apparatus, \$10 per annum for those who attend the classes of Chemistry and Physics; Drawing, \$60; Piano and use of Piano, \$70; Violin, Flute, etc., \$60 each for those who wish to learn them; \$100 for Students spending the Summer vacation in the College.

There are other slight expenses for societies which the Students form among themselves.

No deduction will be made for absence or withdrawal from College, except on account of sickness or dismissal, and in these cases no deduction will be made for a shorter period than one month.

Books, stationery, clothes, etc., are furnished by the College at current prices, or may be procured by parents or guardians. No uniform is prescribed; all the College requires in the matter of clothing is that each Student should have, in quality and quantity, what befits a young gentleman. Each one should, on entering or on returning after either vacation, bring enough of clothing to last until the next vacation.

Articles of clothing, books, etc., will not be furnished by the College unless a deposit for that purpose be made with the Treasurer.

No advance will be made beyond the deposit.

Pocket-money, if any be allowed by parents or guardians, should be left in the hands of the Treasurer, to be given as prudence may suggest or occasion require.

Students coming from a distance may have guardians appointed in the vicinity, to be responsible for the regular payment of bills, and to receive the Students if for any reason they should have to withdraw from the College.

COURSE OF INSTRUCTION.

The instruction furnished by the College is of two kinds—Classical and Commercial.

ST. JOHN'S HALL

AND

PREPARATORY DEPARTMENT,

FORDHAM, N. Y.

The attention of Parents and Guardians is directed to the peculiar advantages which this Department affords to younger boys whom they are desirous of placing at Boarding School.

It is intended to prepare boys from ten and upwards for the higher classes of the Collegiate Course.

The former Diocesan Seminary, which is situated northwest of the College buildings, is entirely refitted. Large Study Halls and spacious Dormitories, in which light, heat and ventilation are carefully provided for, are completed.

Military Drill and Calisthenics have been added to the regular course.

German and French are taught free of charge.

The Hall is under the management of the College authorities.

Terms as above.

For further particulars, address

THE MILITARY DEPARTMENT.

In accordance with an Act of Congress an officer of the United States Army is detailed for duty at the College as Professor of Military Science and Tactics. The War Department furnishes the College with the necessary arms and equipments.

All Students except those of the graduating classes are required to attend drill once each week. For this no uniform is necessary. Besides this there is a Cadet Company with optional membership. Its members drill three times a week in uniform. Its officers are selected from the Cadets most distinguished for soldierly bearing and proficiency in drill and tactics. The uniform adopted is similar to that worn at the U. S. Military Academy at West Point, and costs, complete, somewhat less than an ordinary dress suit. It can be worn at all times, so that it is not necessary to be provided with two outfits of clothing.

The advantages of this kind of exercise, even for physical culture, are such as easily recommend themselves to the consideration of parents or guardians.

GENERAL STATEMENT.

ST. JOHN'S COLLEGE enjoys the powers and privileges of a University, and is conducted by Jesuit Fathers. It is situated at Fordham, in the picturesque and healthy part of New York County, between the Harlem River and Long Island Sound, and is reached in thirty minutes by the Harlem trains, which leave the Grand Central Depot every half-hour; it is easily accessible at all hours and seasons, either by private conveyance over the great boulevards, or by the horse-cars which lead to the gate at the foot of the College lawn.

The grounds are extensive, well laid out for College purposes, and afford uncommon facilities for athletic sports, for bathing and skating. Ample opportunities are also provided for indoor amusements. The buildings are spacious, thoroughly ventilated, lighted by electricity, and supplied with modern conveniences. The Chemical Laboratory, the Philosophical Apparatus, and the Cabinet of Natural History occupy a separate building; considerable additions are made yearly to this department. Besides the College Library, which contains 20,000 volumes, there is a Circulating Library of over 5,000 volumes, especially adapted to the needs of the Students.

INSTRUCTION.

The Collegiate year is divided into two terms; the first begins the first week of September, the second on the first of February.

The best time for admission is at the beginning of either term, but applicants may be received at any time during the year. Candidates for admission, whether coming from their homes or from other Colleges, are required to present testimonials of good moral character. They are examined by the Prefect of Studies, and placed in the class to which they are entitled by their attainments.

The scholarship of each Student is determined by weekly competitions in some branch of study, and by examinations. There are two examinations of all the classes every year, one at the end of January and the other at the end of June. In each of the semi-annual examinations the several classes are examined in all the branches studied during the previous half-year. Any Student failing in the January examination descends to a lower class, unless he makes up for the deficiency within a specified time, besides keeping up with the class in its regular work; failure in the June examination debars a Student from advancement to a higher class. A Student failing in any branch at either of the examinations is not a full member of his class, so long as he does not make up for the deficiency. Testimonials are awarded for superior success in these examinations.

At the beginning of every month the standing of each Student for conduct and application during the previous month is publicly read out in the College Hall, and testimonials are given to those who have attained to the specified degree of excellence.

A record of the weekly competitions, of the monthly standing, and of the general examinations of each Student is kept in the books of the College, and a report of the month's work is sent to each Student's parents or guardians.

Medals, prizes, and honors are awarded at the Commencement and published in the annual catalogue; for proficiency they are

determined by the weekly competitions ; for application and for conduct, by the monthly standing ; for scholarship in the several branches of study, by competitions held throughout the year. No one deficient at either of the general examinations can compete for prizes or honors.

The degree of Bachelor of Arts is conferred at the close of the College course. The candidates for this honor are required to undergo an examination in Natural, Mental, and Moral Philosophy, in Evidences of Religion, in the Philosophy of History, and in higher Mathematics. Such candidates must also give evidence of having attained a specified standard in Greek and Latin, and in General Literature.

Graduates who desire a fuller mental training may, in the Post-graduate class, pursue the study of Natural Law and of other branches of higher education. This second year is of the greatest importance to young men. At the end of this year the degree of Master of Arts is conferred, after a satisfactory examination.

DISCIPLINE.

The rules of the College have for their sole end to strengthen and develop the moral character and to secure the order essential to a successful pursuit of learning. These rules, which are read and explained to all, must be accepted and observed faithfully. The manner of enforcing them is firm, yet mild and paternal, and appeals especially to honor, to conscience, and to religion.

The Students form three distinct divisions according to age. Each division has its separate study-halls, dormitories, and playgrounds, its own gymnasium, billiard and reading-rooms.

The U. S. Government has detailed an army officer to give instruction in military drill and tactics to all the Students.

The correspondence of Students is under the supervision of the College authorities. No books, papers, periodicals, etc., are allowed among the Students until they have been examined and approved.

The visiting days are Sunday afternoons and Thursday in Summer; Sunday, Tuesday, and Thursday afternoons in Winter.

The Summer vacation begins on the last Wednesday in June and closes on the first Wednesday in September. There is a vacation of one week at Christmas, but none at Easter.

It is of the utmost importance that Students be present every day of the Collegiate year. Absence subjects them to the loss of marks and adds to the difficulty of obtaining prizes and honors. Permission, therefore, to visit New York City or home is *granted only at the request of parents or guardians*, and for reasons deemed imperative by the President. Moreover, all Students are required not to stay at home beyond the time allotted for vacations, as competition for prizes begins immediately. The attention of parents and guardians is especially called to these regulations, and their co-operation is earnestly solicited.

The ordinary causes of dismissal are: insubordination, continued inapplication to study, and bad conduct.

EXPENSES.

All the charges are payable half-yearly in advance.

Entrance fee, to be paid only once,	\$10 00
Tuition and Board, per annum,	300 00
Washing and Mending of Linen, per annum,	30 00
Medical Attendance, per annum,	5 00
Half Boarders, per annum,	160 00
Day Scholars, per annum,	60 00

Use of Chemical and Philosophical Apparatus, \$10 per annum for those who attend the classes of Chemistry and Physics; in Analytical course extra charge for breakage; Drawing \$60; Piano

and use of Piano, \$70 ; Violin, Flute, etc., \$60 each for those who wish to learn them ; \$100 for Students spending the Summer vacation in the College.

There are other slight expenses for societies which the Students form among themselves.

No deduction will be made for absence or withdrawal from College, except on account of sickness or dismissal, and in these cases no deduction will be made for a shorter period than one month.

Books, stationery, clothes, etc., are furnished by the College at current prices, or may be procured by parents or guardians. No uniform is prescribed ; all the College requires in the matter of clothing is that each Student should have, in quality and quantity, what befits a young gentleman. Each one should, on entering or on returning after either vacation, bring enough of clothing to last until the next vacation. Under clothing should be marked with the name and surname of the Student.

Articles of clothing, books, etc., will not be furnished by the College unless a deposit for that purpose be made with the Treasurer.

No advance will be made beyond the deposit.

Pocket-money, if any be allowed by parents or guardians, should be left in the hands of the Treasurer, to be given as prudence may suggest or occasion require.

Students coming from a distance may have guardians appointed in the vicinity, to be responsible for the regular payment of bills, and to receive the Students if for any reason they should have to withdraw from the College.

ST. JOHN'S HALL,

AND

PREPARATORY DEPARTMENT,

FORDHAM, N. Y.

The attention of Parents and Guardians is directed to the peculiar advantages which this Department affords to younger boys whom they are desirous of placing at Boarding School.

It is intended to prepare boys from ten and upwards for the higher classes of the Collegiate Course.

The former Diocesan Seminary, which is situated northwest of the College buildings, is entirely refitted. Large Study Halls and spacious Dormitories, in which light, heat and ventilation are carefully provided for, are completed.

Military Drill and Calisthenics have been added to the regular course.

German and French are taught free of charge.

The Hall is under the management of the College authorities.

Terms as above.

For further particulars, address

REV. JOHN SCULLY, S. J.,

President.

LITERARY SOCIETIES.

St. John's Historical Association.

This Association was organized March 26th, 1862. Its object is to promote the investigation and diffusion of historical truth. Regular meetings are held semi-monthly. The moderator is appointed by the Faculty. The President and other officers are elected semi-annually by the members.

A Gold Medal, worth fifty dollars, is yearly awarded to the writer of the best biographical essay on some eminent Catholic layman of the present time or of past ages. This prize originated with the Most Rev. John Hughes, Archbishop of New York. Since it was suggested by that illustrious prelate, the medal has been given every year by friends of the College.

We would respectfully suggest to the friends of the College a very good and honorable work, namely the founding of prizes and scholarships. Such foundations would stimulate young men to greater ardor for serious studies, and, while showing the public spirit and zeal of the founders for education, would enable the College to bestow higher rewards on successful exertions.

The officers for 1888-89 are :

FIRST TERM.

T. GAFFNEY TAAFFE,	<i>President.</i>
DANIEL R. KIERAN,	<i>Vice-President.</i>
JOHN H. SLEVIN,	<i>Corresponding Secretary.</i>

THE MILITARY DEPARTMENT.

In accordance with an Act of Congress an officer of the United States Army is detailed for duty at the College as Professor of Military Science and Tactics. The War Department furnishes the College with the necessary arms and equipments.

All Students except those of the graduating classes are required to attend drill once each week. For this no uniform is necessary. Besides this there is a Cadet Company with optional membership. Its members drill three times a week in uniform. Its officers are selected from the Cadets most distinguished for soldierly bearing and proficiency in drill and tactics. The uniform adopted is similar to that worn at the U. S. Military Academy at West Point, and costs, complete, somewhat less than an ordinary dress suit. It can be worn at all times, so that it is not necessary to be provided with two outfits of clothing.

The advantages of this kind of exercise, even for physical culture, are such as easily recommend themselves to the consideration of parents or guardians.
